early pace set by Durella, which was April 17 Riehmond Hill vs. Newtown, \*B favored by a fast start, which Jockey Flushing vs. Jamales: April 24, Bryant vs. 108 Richcreck took full advantage of by crossing the field sharply. Lady Wal-deck, an outsider, took second honors from the tired Judge David at the end. Richcreek was later suspended for the remainder of the meeting for his mis-

Senator James defeated a field of fourteen in the third event after wearing down Mack Garner, the early pacemaker, in the run through the stretch. The start in the race was ragged and affected the chances of a majority of the con-

Jack Reeves performed another of his famous "Gilletts" by skinning the inner rail during the running of the sixth and coming from last position to win off easily from the early pacemaker, Dancer. McAdoo fought it out for third honors with Little String, and at the end proved

tered in the seventh until his numb was posted as the winner. Complete neglected in the speculation, he brot well, followed the pacemakers to the stretch, where he outgamed Bubblic Louder and won handily. Tanlac too third place from the fast tiring Drage

### FOUR FAVORITES WIL AT ORIENTAL PARI

Walter Mack and Sasant Score for Spence.

Special Despatch to Tan Sun.

Havana, Cuba, Dec. 24,—The form players enjoyed a very profitable afternoon at the Oriental Park track to-day when four well played choices galloped off with purses. Wynnewood was the first favorite to go over. He scored rather easily when he beat Br'er Fox a length and a half. Mike Dixon was third, half a length back.

Major Fisk proved a false choice when he failed in the second race. The winner turned up in Hello Pardner, which won in a gallop by seven lengths. Director James was a length and a half

in front of Colonel Lillard.

Kay Spence had a field day. He saddled two winners, Walter Mack and Sasanta. Walter Mack was an odds on choice and won by three lengths. Blanchita was second and Colonel Har-

rison third, The summaries:

preparation had its visible effect on today's attendance at Jefferson Park.
Despite the increased purses offered a
cheaper class of horses contested and
upsets were numerous, with consequentjoy to the men who lay the odds.
What developed into the best contest
of the programme, which lacked a
itular feature, came with the running
of the fifth race. It provided a close
duel between Hidden Jewel and American Eagle, which began at the barrier
and continued to the end, and the result always was in doubt. From a good
start these two raced in close company.

with American Eagle on the outside. This position was responsible for his ultimate defeat, for he was beaten less than the extra ground he was compelled to travel. Back of them at the finish came Irish Maid and Sturdee, while the heavily supported Murphy finished sixth. Grove A. proved himself the most popular horse of the afternoon by annexing the fourth from a band of good two year olds. Heavily supported in the speculation and well ridden by Rodriguez he took command soon after a good start, and held on well in the closing run to withstand the belated rush of Little Sandy.

A cheap lot faced the starter in the first. Revolution, the favorite, proved easily best after following close to the early pace set by Durella, which was favored by a fast such which was favored by a favored BROOKLYN DIVISION.

Will Save Elk from Starvation.

The two principal herds of cik in the United States—one of which is under the protection of the Biological Survey of the United States—one of which is under the protection of the Biological Survey of the United States Department of Agriculture, are in danger of such serious depiction, due to early severe weather and feed shortage, that special funds have been set adde for the purphase of hay for these animals, whose home is in or near Yellowstone National Park. Department officials size making every possible effort to produce the needed feed, daspite the serious scarcity of may and forage in the region. Approximately (0.000 cik rount this section of the country. They are divided into two groups known as the northern and southern herd, respectively. The latter, which winters in the vicinity of Jackson Hole, to the south of Yellowstone Park, is the one for which the Department of Agriculture is seeking to make provision.

Reports lave recently been received from Washington Heights, Dec. 24.

the vicinity of Jackson Hole, to the south of Yellowatone Park, is the one for wolf the Department of Agriculture is seeking to make power recently been received from Government representatives in the region of Yellowatone National Park stating that many elks are destined to starve if the present severe weather continues and if no additional supplies of feed are provided. On the winter elk refuge in Jackson Hole the Department has in stors approximately 1,300 tons of hay, which normally would be sufficient to carry the southern here through the sinter. But cold weather and heavy shares came as early that the present severe weather continues and if no additional to carry the southern here through the sinter. But cold weather and heavy shares came as early that the park with a serious condition and are relucient to carry the southern here through the sinter. But cold weather and heavy shares came as early that the park with a serious condition and are relucient to park with any of their hay.

The northern sik hard is under the supervision of the National Park service of the Department of the Interior, which is also making every effort possible to previent loss of these animals.

These two herds are the largest elk herds remaining in this country, though as cone time elk were to be fournit of the previent of the two-thirds are too herds are to be fournit of the previent sportsmanship of the kill, and instead rambled off in an attempt to detract the readers' minds by enlarging on the abilities of the man in question as a caster of the fit, which in addition to a personal attack on me and one other, would seem to be the purpose of Mr. Dorff's article.

For the edification of Messrs, Dorff. Fiyan, Baswell, Millett and company, I repeat again that any man that "killed" forty-five irout in four hours, whether he eats them himself, gives them away or coss anything else with them, is a fish hog pure and simple. I care not whag the leart of Warwick, the King of England or the janitor says about his father or whether he was born a fisherman or a fish hog.

My contentions are backed up by the recent, resolutions adopted by the New AUTOMOBILE.

My contentions are backed up by the recent resolutions adopted by the New York State Fish, Game and Forest League and the Liberty Red and Gun Club, which arge a law limiting the esten of any one man to twenty-five trout in one day "Search Me" is also out for such a law. I dislike very much to deal in personalities, but if mud is going to be thrown. I feel I have the right to return the same ammunitien and beg the use of the Rod and Gun column of THE SUN to defend the norm de plumes that have been used by me for the past twelve years, at one time or another, as the editor of the fishing department of "Forest and Stream" magazine, editor of the rod and gun department of the "National Sports Weekly." editor of "Tap Shooting, Hunting and Fishing with Bugs" of the New York "Evening Mail," and writer of special articles for the Sunday issue of the Rod and Gun department of THE SUN and ether outdoor publications. Does not Mr. Dorff write occasionally, not only under his own name, but also under the nom depune of "Shap On", I is in ot a questione of "Shap On", I is in ot a questione of "Shap On", I is in ot a questione of "Shap On", I is in ot a questione of "Shap On", I is not a questione of the shape of the s born write occasionally, not only inder-his own name, but also under the nom de-plume of "Suap On"? Is it not a ques-tion of the boot being on the other foot. My nequaintance with Mr. Dorn dates back two years, having met him first along the banks at Valhalia. Later I used my efforts to provide him with sult-

By INNIS BROWN. The wave of job shifting at present

ty- floating over the ranks of professional the goffers has gathered another important change in the Metropolitan district. George Low, who has been on the job t the Baultusrol Golf Club for several Pob MacDonald, the big Scot, who has tecture. It is said he and A. W. Til-linghast, who has been engaged in course architecture and construction for sev-eral years, will team up in handling jobs of this kind. Both are planning on doing work along this line in California during the winter. Low has already been engaged to handle some important improvements on the Midwick Country

The coming of Bob MacDonahi to Baltusrol will add to the forces of the Eastern contingent in meeting the Western delegation in big tournaments. As a rule the tendency of recent years has been for the Western clubs to lure the crack pro-fersionals from their Eastern berths. As a result many of the topnotchers who formerly labored on Eastern courses are

than one. In the first place he is a rollicking blg fellow physically. Also he is noted as the real high power siege gun among the professionals in driving.

When he really tries he can most certainly give the little ball one grand ride from the tee. Bob has never captured one of the big title events, but he is always well un around the top, and in always well up around the top, and in the language of the clan "he's about due to come through."

first place in the list by a Boston critic in ranking amsteur golfers of the Bay State for the year. In second, place comes Jesse Guilford, while Fred Wright gets fourth place, and F. C. Newton, who divides his golfing allegiance between Brookline in Boston and Richmond county here, gets fourth place. Ouimet won the Massachusetts amateur championship, defeating Guilford in one match, which gives him his place. Guilford provided something of a sur-prise by winning the Massachusetts open from a good field of amateurs and

professionals, which gives him a clear

call for second place.

The Boston district is promised one of the busiest tournament schedules ever offered in the history of golf in the Hub next season. During the pas season many clubs of the district held tournaments described as open tourns ments under the auspices of the Mas-From friends of Low comes the information that the veteran is going to give much of his time to course architecture.
